Dear Sir/Madam

I attended a meeting yesterday regarding the houses Leeds council are planning to build in or near Rawdon. I was appalled to learn that you want to build on Green belt land. I thought this land was never to be built on, when did the law change? (or has it) Apart from the issue of illegal building there are no plans, I know of, to improve the roads or facilities in the area which is already congested to overflowing, and that is before the new Railway station is up and running. We have lost so many Green spaces in recent years. Please take note of my objections.

Yours faithfully.
