Ref Leeds Site Allocation Plans & AVLAAP

Dear Sirs

I wish to complain about the proposals to build on Green Belt land in contravention of national policy NTPF,especially regarding sites HG2-41 HG2-42 HG2-43 HG2 -12.

These areas are and have been important to me and my family in enjoying recreational activities and teaching children about nature, giving them a sense of environmental responsibility.A necessary thing for future children.

These areas once lost are lost to the community for ever, and our quality of life will be diminished. Our roads are overloaded now and do not want any further pressures,new houses will require new infrastructure,schools, doctors,care in general where is the budget for expansion?

Yours Sincerely

F.W.Moore
