

PDH00197

My name is Gaynor Keen,

I have been a resident on Acres Hall for 25 yrs. In this period of time I have seen Acres Hall thrive as

a community, for example the majority of residents have bought their homes. I feel if a were to build on Green left land you are going to take away.

The joys of the dog walkers, walkers. Hanging which is what I see every-day through my window. When I bought my home one of the reasons was the scenic view. I feel if you build on this land, not only will my property be devalued but you are also going to un-merge the all around good feel to Acres Hall. The build will cause life style changes
