Broadway
Horsforth
LS18 4EX

Dear Sirs,

I am responding angrily to the Leeds Site Allocation Plans to build 3000 new homes in Horsforth and surrounding green belt. These plans contravene the National Planning Policy framework and will cause dangerous traffic bottlenecks on the roads around Horsforth that can only just cope with the traffic now. It takes me 1 hour on the 50A bus to get to work as it is, and a lot of time is taken just getting out of Horsforth. The infrastructure just can't cope, not to mention facilities such as schools and doctors. The whole area at HG2-43 (5009)

is a conservation area, how dare this just be ignored? The fields at HG2-41 (4240) are loved by children when they pick strawberries, and the traffic at that roundabout already queues the whole length of Broadway at Peak times and we have just had 2 years of roadworks in that area whilst traffic lights were erected.

I am so angry that you are proposing to ruin the character of the area and create a nightmare for we residents just so that ^{more} 5 bedroomed ~~more~~ houses for the well off can be built. We have enough of them already.

Yours Sincerely

Mrs L. Jones
