The aim of Green Belt Land is to prevent urban sprawl. On Leeds City Councils own web page it states ‘ Permission for developing on Green Belt Land is not allowed except in exceptional circumstances ‘

Regarding sites :- Hg2-12, HG2-41, HG2-43, HG3-2 HG3-3 and HG3-4, they seem to me to completely disregard the above statements.

No Green Belt Land should be considered until all the Brown Field sites (in Leeds) have been developed eg Green Lane Mills Yeadon.

Developers do not like this idea because digging up fields is an easier option, also all infrastructure (Schools, Doctors, Dentists, Road improvements Etc) should be in place before any housing is allowed to be built.

Yours faithfully

(MR Dennis Court)
