Rawdon Greenbelt

this was in the paper last week - true but will not be if all the new building goes ahead in Rawdon/Horsforth. My comments are

general.

If I'd wanted to live in a built up area I'd have stayed nearer the city centre. We wanted cleaner air and open countryside. The proposals would mean a 7 mile corridor of building from Leeds to Quireley - no lovely trees and fields to admire. Loss of livelihoods for farmers - country walks - wild life habitats.

The A.65 can't cope now, never mind with an extra 4000 cars (most households have 2 cars) + school traffic. A school at the junction of the King Road/A.65

a nightmare to get in and out.
What pollution from the traffic
jams! More health problems!

The proposed airport link road - again
taking greenbelt and livestock and
recreation facilities. Is it really
necessary? Out onto a narrow lane
and to a road which can't be widened.

We don't want all this. The MPs
don't want their southern villages
sprung we don't either.

All other options ~~and~~ should be
eval first - vacant properties (Council or
private) Brown sites - adaptation of unused
buildings.

Proposed houses too big. Sites already
built in Leeds not fully let - people
haven't the money to move.
Yours faithfully,
