PDH00368

Dear Sir/Madam

I would just like to tell you how upset I am about you building on our fields. First the buildings will be an eyesore to not just the People that live in this area but just generally to everbody. Second of all we live surrounded by miles of woodland with wonderful nature and in someways you are destroying that. I've seen rabbits and deer in that field and your just going to build ontop of their home. Can't you see what you're doing?

I hope you sit down and put this letter into a lot of consideration and see what you are doing to the countryside around my home.

Yours sincerely
