30TH October 2015

Dear Sir/Madam.

Re proposals to build 376 houses. Site HG2-17 (1080 & 3367A)

I object to this planning application on the grounds that this is too big an increase of our village.

This would cause problems no facilities :-doctors, schools, etc. It would ruin our village and would just make urban sprawl. We have a rural character to the village and this should be maintained. We have very little green belt as it is.

These houses would add to the traffic congestion on the already overcrowded A660. Also taking into consideration all the already new build of houses in Adel + Boddington Hall site. Are these houses being taken into consideration with your facts and figures for how many houses are needed in Leeds?

It would impact on the wild life in the village and do irreparable damage to it.

Yours sincerely

Mr Kenneth Wright.
