Dear Sirs/Madam

**Comments & Objections – Housing Sites in Bramhope**  
**Site – HG2-17(1080 & 3367A) Breary Lane East/Leeds Road**

I wish to object strongly to the above plans for development in Bramhope, and these objections are set out as follows:-

- The traffic on the A660 during peak times is now so heavy that it takes at least 50 minutes to an hour to drive into and out of Leeds. The build- up reaches a peak at the Lawnswood roundabout, with traffic queuing all the way round, making it extremely dangerous .The possibility that more houses could be built in Bramhope, thus adding to this, is unthinkable.
- The public transport in Bramhope is very poor. There is one bus service, which is unreliable and irregular.
- The current infrastructure of Bramhope is totally inadequate to provide vital services to such a huge increase in population of the area. There is one doctors surgery, one small primary school, and a handful of shops. It already takes at least a week to get a doctors appointment.
- The loss of greenbelt, the threat to wildlife and trees would have a drastic effect on the environment.

If these proposals were to go ahead, the current village of Bramhope would no longer be a village. It would be a town, without the infrastructure to support it.

Yours faithfully

Mrs H Watson
