FORWARD PLANNING AND IMPLEMENTATION.

LEONARDO BUILDING

2, ROSSINGTON ST. LEEDS LS2 8HD.

Dear Sir / Madam.

Green belts and all it offers with its trees and wild life is essential not just to Horsforth but to the well being and survival of this planet.

Take it away and the concrete jungle will eventually suffocate the earth!

There are plenty of brown field sites, some for example near the Rodley canal, which could be developed with allowance for trees and shrubs.

We must all be aware of how precious the little oasis of green are, and that their destruction threatens our very existence!

The plans for massive building in Horsforth will also cause chaos on the roads and yet another great build up in pollution — these again threatening the health and well being of all!.
