Dear Sir/Madam

I am writing to protest against the proposed developments on greenbelt/greenfield sites in and around Horsforth

ie HG2-43 at Horsforth College Campus
HG2-42 Fields at Broadway and Calverley Lane Horsforth
HG2-41 fields south of the A65 which lead to the Crematorium .

I feel that to developing these sites is contrary to the National Policy Framework (NPPF)
National Planning Practice Guidance (NPPG)

There are no exceptional circumstances for breaking the National Policy, as it would increase urban sprawl, merging the villages along the A65. (No amount of road infrastructure change on the A65 will alleviate the problems caused by developers merging villages)

The loss of greenbelt/green-fields can only have an adverse effect on the Biodiversity in the areas ie; loss of habitat for wild life ,the breaking up and narrowing of the green corridors that wild life depend on .

I believe that in and around Leeds, including Horsforth ,there are brown fields sites which could be developed before Leeds City Planners give any thought to granting permission to develop any greenfield /green belt land .

Yours faithfully

J.A. Howell
