Dear Sir,

I am writing to object to your ten year housing plan for the Horsforth area. I am particularly concerned about the areas HQ2-41, HQ2-42, HQ2 43, HQ2-12 & HQ3-2, HQ3-3, HQ3-4 as all these sites must be green belt land and I believe this is against the National policy.

I am especially concerned about traffic problems as my house is the nearest house to Horsforth roundabout and we have just finished with a year's disruption for road works. My house is a lovely Edwardian house & I have lived here for 40 years but I have known Horsforth since I was born in 1928 & seen so many houses built over that time & all the extra traffic which ensues.

I can see the A65 & the ringroad being at a standstill if you build all these houses as the traffic will have to come onto these

roads.

I now have traffic regularly at a standstill alongside my house which I'm sure will not be good for my health + it will put me off sitting in the garden in the summer. I'm sure there will be damage to the environment + health.

If ever you want to see the amount of traffic around this roundabout you are welcome to come + look through my attic window!

Yours sincerely.
