Dear Leads

City Council

I write to express my absolute disgust at the proposals for housing at the following sites H92-12 fields & woodlands Drive Rawdon. This will completely ruin the area of Crags woods & the surrounding area.

H93-2 H93-3 which is 4 fields off the A65 at Rawdon. This road is extremely busy without the Egress & access problems. It also infringes on Crags woods as above.

H92-41 fields South of A65 to Rawdon constraints. Again other main road route too busy already.

These proposals are in green belt areas of outstanding natural beauty within an area that is close to a preservation area. We know as we have to do all our plans close to this area in line with.

This is NOT consistent with the national policy. You should be using Brownfield sites not Greenfield.

This is against the Leeds Core Strategy

These areas are all very important to us.
We have lived here for over 15 years & we
use all the walkways, Bridlepaths & footways
to enjoy the quiet countryside.

The impact of extra housing on the roads,
woods, footpaths, Schools, Medical Centres
and general Society will be Massive.

Do not underestimate how it will impinge
on Crags Woods & the surrounding areas.

I have walked all the sites personally
& it will impact hugely. All my family
& friends love walking, exercising &
visiting this beautiful area.

**STOP THIS DEVELOPMENT
NOW. IT IS NOT WITHIN THE
INTERESTS OF ALL INVOLVED.**

Mrs B. DAVEY
