NOV 2015

Dear Leeds City Council,
I have only just found out about the plans for building on the following sites HG3-2, HG3-3, HG3-4 HG2-12 & HG2-41.
I feel building on this land is wrong as it deprives future generations of enjoying the Greenbelts. The government states that greenbelt should only be built on if its absolutely necessary.

From looking on the internet I can see plenty of brown belt sites that could be built on. Also why are no affordable homes being built. If I wanted to buy a home around this area in the future I stand no chance as the cost of these homes will be out of my price range. I think most people in this area don't know about these plans, I only found out from the local Rawdon Action Group.

Regards
