Dear Sir/Madam

Re: Objection to building in response to Leeds site Allocation Plans

I am writing to strongly object to the proposals to build on sites in and around Horsforth and Rawdon in particular the sites names below:-

HG2-12 fields at Woodlands Drive, Rawdon

HG2-41 – fields South of A65 Horsforth roundabout to the crematorium

HG2-43 – fields at Horsforth College Campus

HG2-42 – fields at Broadway and Calverley Lane Horsforth

Please do not develop on the above sites.

The road network already cannot take any more vehicles, there are no motorway links, the local schools are for local people and are already full to capacity.

Newlathes school and Featherbank school have already been changed so that pupils have to remain at one school and not start at Featherbank and move to Newlathes at aged 7. Featherbank doesn't have sufficient outside space for the pupils.

Horsforth is already extremely short of green space and there are far too many houses to support the road network as I mentioned above.

Local Horsforth people can't have use of the Horsforth Cemetery as it's full – extend the cemetery as previously planned so families from Horsforth have somewhere to go to remember and visit their loved ones.

Leave our strawberry fields alone have awareness of wildlife habitats, think about pollution with adding even more traffic to the Horsforth ring road and the A65.

Concentrate on regenerating run down areas of Leeds.

Yours faithfully

Sue Bettley
