

PDH00547

We would like to give our views on the supposedly new houses that are going to be built in our area. We live up "Barr Lane" which is in the middle of the strawberry fields. We have an out look over a small wood and fields. In those places we see deer, foxes, many different birds and als the red kite. All that would disappear and we would just look out on many houses. Not to mention the upheaval to day to day life. Not just for us but many of the proposed places.

Not only that but the facilities will not cope, Doctors, dentist, schools shops ect. Not to mention the roads, Millions have been spent on the Horsforth roundabout will that cope with

the with the extra traffic, I think not.
Also Rawdon road, how will all
the heavy lorries, plus the on going
traffic manage. It just doesn't make
sense.

We have lived our lives here since
children and would like to think we
could live our lives here. If the houses
do go ahead, we certainly would move!
There will be no trees, or fields left
if all these plans go ahead.

NO WE DONT WANT THEM!!
