Ings Lane
Greaseley
Rochdale LS20 8DA

Dear Sir,

We married in July 1961 and moved to live at the above address. We were happy to move to Ings Lane and became very friendly with a neighbouring family. About ten years ago this family decided Ings Lane was much too busy for them and moved away from Greaseley ending our friendship.

In these 10 years Ings Lane has become a main road because of the A65 becoming completely overused. It is now used as a Car Park, No yellow lines allows parking all day long and Greaseley is at a standstill.

The thought of more houses between Ings Lane and Marston is frightening and ridiculous.

Schools, Doctors Surgeries are

already cut men but this does not seem to matter.

We are now in our 80's so the future does not really affect us, but it does to our family.

Please do not allow any more

- Building and support the Menston and Quisley Green B&T Protection group.

Yours faithfully,
