

5th November 2015

Dear Sirs

Leeds Site Allocation Plans- HG2-41 and HG2-43

I would like to object to the number of houses you are proposing to build on Horsforth's Green Belt, totalling over 1,000 according to your plans. This is in addition to over 1.500 houses already approved and now being built in this area.

I agree houses are badly needed to cope with demand but do not agree that housing in Horsforth should increase by such a large number especially on Green Belt land. The roads, schools and services just will not cope.

Small pockets of houses are the answer, fitted in here and there so as not to spoil the area and allow easier integration into the community. Thought should be given to reducing the number of houses proposed for Sites HG2-41 and HG2-43.

Houses need to be built but surely these plans show that Horsforth's Green Belt is being unfairly targeted.

Yours faithfully

Mrs. Sherlie Stephenson
