- 9 NOV 2015			

We have lived in Garforth for over 25 years now and have seen a lovely large village turn in a sprawling town. So much of the countryside has been lost to more and more housing developments.

We have too few spaces of woodland left and it would be a tragedy to loose what little left we have.

We have stayed in the same house for all these years as we have private woods behind us and the bridle path gives us some feel of countryside in what has become a heeds suburb. Please build with respect to our mature trees & hedgerows.

Yours sincerely

56 Severn Drive

Garforth.

heeds LS25 2BB.

## Garforth Neighbourhood Planning Forum

Dear Resident

The Garforth Neighbourhood Planning Forum is compiling a response to the LCC Site Allocation Plan. As you are no doubt aware LCC hope to build 2314 houses on the site formerly known as 1232b (now HG2-124) Stourton Grange Farm South – Selby Road/Ridge Road, Garforth. It has come to our notice that what remains of Stub Wood (Ancient Woodland protected by TPOs) would appear to have been included within the new site and it is possible there are boundary discrepancies. We are trying to ensure that if the site goes ahead Stub Wood and other mature trees and hedgerows remain in situ and undamaged.

We need to clarify the site boundary and all information regarding mature trees within/outside your boundary would be appreciated.

The LCC Site Allocation Consultation closes on 16<sup>th</sup> November 2015 therefore we would be grateful if you could respond as soon as possible with your information so it can be included in our response to LCC.

Please return your response to 28 Severn Drive.

Thank you.

Kind regards

Garforth Neighbourhood Planning Forum.
