Re Site Allocation Plan – Field adjacent to Holy Trinity Church, Church Lane , Meanwood.

This site has been the subject of speculation for many years. It seemed like the ideal place to build a C. of E. Primary school, until it was found that the site was often water-logged. Many houses on that hill-side have problems with damp, including houses already built at the edge of the site. There is a lot of wet land in the field and parts of the adjacent grave yard, due to springs in the hill-side.

For this reason I suggest that this piece of land is not an appropriate location for the building of houses.
