Dear Sir and Madam,

Regarding the proposed Traveller Site at the back of the Gata Bingo centre opposite Parkside Road off Tong Road. The above recommended site is for four caravan spots whereas in future this site will be expanded to make the site credible in size and cost effective. Unfortunately the proposed site will look out-of-place in the area and not give privacy to the caravan tenants. It is important to find a site that allows credibility of size and allows for future expansion.

Surely a Travellers Site should be considered at Park Spring Taree off Wood Lane (Rudsey Road) before Post Hill. The upgrade access road would have to have an improved junction the access road widened with a footpath, tarmaced and drained, lighting considered. It would allow a Travellers Site to be masked by mature trees creating a tourist caravan site appearance and would allow plenty of room for future expansion. The caravan residents would have privacy not being sited at the side of the busy Ring Road. This proposed site should be seen as a long-term investment and future problem solving solution. I do hope the above proposed site could be looked at.

Yours faithfully
