To Whom it concern,

We wish to strongly object to the proposed housing developments being considered for several green field sites in the Horsforth area. As follows REF:- HG2 -41

HG2 -43

HG2 -42

These Leeds Site Allocation Plans are totally unrealistic bearing in mind the area is already over crowded as far as Schools, Doctors and especially Traffic congestion in and around the main A65 road . Current housing developments at Riverside Mill and Kirkstall Forge are already more than enough for the area concerned. Horsforth is full !!!!

Yours Sincerely J & M Icton
