Re: Planning application
REF: 492-17 (1080-3367A.)

Dear Sir / Madam

PD1100634

I write to oppose to the huge housing development for which planning has been sought. Having lived in Bramhope Village for over 25 years and experienced the already very heavy volume of traffic on both the A660 and the local small country lanes, a development of this magnitude can only make an already bad situation far worse.

The loss of so much green space / green belt and all the ecological consequences do not justify this proposed development.

The village does not have roads, infrastructure or amenities to support such a massive development.

I hope my points are considered when making your decision.

Yours faithfully
