Cookridge

LEEDS LS16. 7EW

PDH00685

Dear Sir/Madam,

Cookridge is a Village & one of the best things they did was to build the fire station. It is bad enough being called Soft Britain but to endanger lives & build more houses there does not make sense. The bus serves is a laugh & more houses not recommended the buses would get worse the traffic a nightmare. It is bad enough if they build on a field that gets flooded. Why not build on the old quarry or where where West Park school was? Areas available. We do not have enough greenery & don't want flooding and this will happen if you keep building houses. Leeds Universitys got a lot of places for students that seem to get bigger every year. I have lived in Cookridge  
P.T.O

2  
I Unskill since I was 4 years old.  
The fields been spoilt that the  
Farmer left for people to enjoy.  
Yes I can still remember the Farm.  
Why Distroy what we have left?  
We almost live in the country &  
we want what is left of it. A  
built up area is a Dangerous one.  
And it is bad enough trying to  
Cross roads these days. Please  
Do not take the Fire Station  
away we need it in Cookridge  
The Fires land could be built on.  
But please think about Safety First.

Yours Sincerly
