Dear Sir,

I am writing to object to the plans to add extra housing into the Rawdon, Yeaton, Ewisley area. The green belt was designated for a reason to stop the villages in this area merging into one, and to keep green areas around the built up housing estates.

The roads in rush / school time hours are mostly at standstill, any accidents or roadworks bring the whole area to near gridlock! Apperley Lane is usually at the centre of all hold ups when the new train station opens the traffic will be worse. I challenge your planning committee to join the traffic in rush hour and school time to see the back ups mainly the airport to Greengates or Ewisley to Greengates or Leeds.

The other issues are schools & health care. Our granddaughter had to take third choice as there were no places left!

When a car crash happened on Apperley Lane and police shut it the cars had to take a different route & took over one hour to get home when I was 3 minutes from my house.

We have lived here over 30 years and every new housing area or extra traffic lights have almost doubled the times to reach places. So the extra volume of cars in the area will only make it worse.

There are plenty of properties for sale here, or to rent so we are not short of housing what about a new school to accommodate the mass of new children?  
you -
