Dear Sir/Madam

I am objecting to the two proposed housing developments reference HG2 179 Fleet Lane/Eshald Lane 40 units and HG2 180 Fleet Lane/Methley Lane 322 units/two form entry schools.

Both of these proposed developments are totally unsustainable and would lead to extra congestion on the local roads as they would be totally car dependant. The local infrastructure is not capable of sustaining such a project.

There are other areas in Leeds which are crying out for regeneration and a lot closer to Leeds City centre, surely this would make more sense to develop these areas if extra housing is really required. There are plenty of houses for sale in our area that are not selling and houses that are not occupied which could be made good at a fraction of the price of a new build.

Green belt lands should not be considered as they are our green areas that are required for all to share and stop us being just one big housing estate. Villages should have their own green areas and borders separating them, they are not meant to end up joining each other which will happen to Oulton and Methley if this planning is allowed to happen.

Surely laws cannot be just changed to make the governments wishes fit, we have to live with the consequences and it's not a nice thought.

Yours faithfully

Liam Hall
