PROPOSED DEVELOPMENT ON GREEN BELT

The reason for my objection is that the plans to build on the green belt contravene the National Planning Policy Framework.

HG2-41, HG2-43, HG2-42

Traffic congestion at the Horsforth roundabout is already severe, especially at peak rush hours.

The proposed development would be a further cause of bottlenecks at such times.

In addition it would be another factor of urban sprawl.

Green belts should be preserved because we hold out countryside in trust for future generations.

Once lost it is lost for good.

I have lived in Horsforth for most of my life and have seen steady encroachment on green open 'lungs' of the village ^{during} that time. Such change has impact on wildlife habitats and recreational opportunity.

Yours sincerely
