Our green belt and agricultural land is too important to destroy.
It is not sustainable both locally and nationally to keep on developing green belt. We are losing species of animals, birds and insects which are dependent on habitat which has been reduced over the years. In turn this also affects our life style. England is already more densely populated than nearly all other countries. We must put a stop to this rape of our natural resorts so that our children have something to inherit.

What is your alternative? Cut immigration and deport all illegal immigrants. Only allow immigrants if they have a job to come to.
