Dear Sir/Madam,

I am writing in response to the Leeds Site Allocations Plans.

Specifically, I would like to object to the following sites:

HG2-41 (4240);

HG2-42 (1016);

HG2-43 (5009);

HG2-12 (4254)

The reason for my objection is that the plans to build on these green belt areas contravene the National Planning Policy Framework (NPPF).

If these plans were to go ahead, they will result in:

- dangerous traffic bottlenecks (of which we already have many in these areas);
- urban sprawl between villages (destroying their distinct character);
- destroy the wildlife habitat, and
- deny the public important access to the countryside.

I hope that my objection alongside those from others who care strongly about their environment in its widest sense, will help to convince the policy makers that these plans should not go ahead as they contravene the NPPF.

Yours Sincerely

J.M.Woodhead
