

NOV 5<sup>TH</sup> 015

54, Hayton Lane  
Rawdon  
LS196RA

Dear Sir

Here in Rawdon we are aware as most people accomodation indeed housing is desperately needed, however an area York Road many closed shops (an eyesore for some time) no doubt living rooms above? a T.V. programme George Clark row of terrace houses heads all boarded up requiring only a small amount of cash to bring them back into use, many commuters would prefer to be closer to their work with less travel expence.

Here again in Rawdon airport noise plus more envisaged over the coming years, the prospect of houses H & 3-4 one hundred and thirty, resulting in area being sandwiched busy road front, houses rear.

Also the development H & 2-41 in a very, very, busy area of the Crematorium to Horsforth Roundabout 777 houses cannot be understood whether in the near future, or in years to come, what of infrastruckes?

Further Link Road A65 an excuse to build further houses on Green Belt, resulting in congestion, pollution, desecration of the Countryside, all avoidable rail link is the obvious answer!

Yours Sincerely
