PDH00952

11th November 2015

Dear Sirs

REF CHURCH LANE PADDOCK MEANWOOD (REF HG2-50)

We wish to raise our concerns with the proposal to build houses on the above site at Meanwood and would comment as follows:-

**TRAFFIC.** The traffic at Meanwood Church Lane & Stonegate Road, has increased over the years greatly and congestion at peak times creates problems already, the recent Waitrose store is very popular together with the development on Stonegate Road and can only get worse with other proposals i.e. Meanwood Club. We have become a way to the ring road from the city centre, without much consideration for the existing community.

**Current Services** These are already stretched and with the proposal for more development at Meanwood GPs, schools and general infrastructure will suffer.

**Loss of Green Site,** This is a much loved site being part of the Church and graveyard and would be considered an erosion of the character of Meanwood and its spirit in the community.

To conclude we can appreciate the need for new housing in Leeds and sympathise with the very difficult decisions to be made however we feel as residents for over 50 years in the area that much of Meanwood has already been given up for much needed housing and that this site should surely be considered again most carefully by your govt/colts.

Thank you in anticipation

Yours faithfully

Donald Roe
