Dear Sirs,

Re: Objection to Planned Housing  
in Horsforth + Rawdon, South of A65

We would like to object to the following sites on the grounds of over 1300 houses to be built South of the A65, mainly:  
 HG2-41, HG2-42, HG2-43, HG3-3, HG3-4 + HG3-2.

The development of the above mentioned sites are just too many in our nearby environment & will increase all traffic immensely with added pollution on the A65. (New Road Side, Horsforth in particular)

These 1300 plus houses will also add to additional parking problems & take away large areas of Green Belt land which lets our nearby area breathe with oxygen at the moment.

In the meantime we would request that something positive is done in order to avoid catastrophic effects to our living area.

Yours faithfully  
 (Council Tax payers for 46 years in this area)
