RESPONSE TO LEEDS SITE ALLOCATIONS

Site ref HG2-16 (1002). Land to the rear of 45 Creskeld Lane Bramhope.

LOSS OF GREEN BELT.

To suggest building 23 houses in a restricted area of greenbelt land in a conservation area is ludicrous. This is a specially designated landscape (N34). The development would alter completely the character of Creskeld Lane.

SCHOOLS/SERVICES.

The proposed development could impact on local primary school and health services.

TRANSPORT.

There is little local employment in Bramhope, the A660 is already very congested and with the councils site proposals ref. further development in Bramhope (376 dwellings) the infrastructure could not cope.

I consider the proposal to be ill considered, especially when brownfield sites are available for development in the Leeds area.

Yours sincerely

James H Hemingway
