Arthington, Otley,

LS21 1QD

9th November 20015

RESPONSE TO LEEDS SITE ALLOCATIONS

Site ref. HG2-17 (1080-3367a) Address Breary Lane East, Bramhope.(376 dwellings)

LOCAL SERVICES.

These would be totally swamped by a development of this magnitude. The local primary school is already fully subscribed, together with local health services.

TRANSPORT.

The A660 is already congested and as there is little local employment the majority of any new influx of people would have to commute to their places of work, causing further congestion at peak times.

ENVIRONMENT.

This would be changed out of all recognition, greenbelt land being taken and wildlife habitation destroyed.

Why is the council intent on prioritising green belt sites when brown field sites are being ignored?. I consider the scheme to be commercial vandalism.

Yours sincerely

James H Hemingway
