RE;LEEDS SITE ALLOCATION PLANS – FORMAL OBJECTION

11<sup>th</sup> November 2015

Dear Sir / Madam,

As part of the Leeds Site Allocation Plan public consultation process, I would like to formally object to the proposed development of the following sites HG2-41 (4240)---HG2-43 (5009). I find it quite outstanding that it appears that Traffic Pollution has not even been considered by the Leeds Council in the area of proposed sites for development. Surely it must be apparent to your Traffic Planning department that even now with the recent improvement to Horsforth Roundabout on the A65/A6120 this is still very congested. It is my understanding that unless the roads around this area are dualled then complete chaos will reign if further development proceeds according to your planning .

It is my understanding that the proposed development sites are NOT consistent with the national policy , specifically with regard to infrastructure. Leeds has insufficient policies in place to address the issues that these developments will generate. Development and infrastructure requirements must be considered side by side. Leeds must continue to protect our Green Belt and greenfields.

Development of these sites on greenfields will not be beneficial to wildlife already inhabiting these areas and will create more and more Urbanisation.

Please keep me informed of the public examinations, submission of the plans and potential outcome of the review as I would like to retain my right to attend and speak.

Yours Faithfully,

D.Michael Gaunt
