How many times have the diocese of Ripon tried to sell our Holy Trinity paddock, are they short of cash?

They built for their own convenience two detached homes a number of years ago, No 1 The top end of the field had to be drained because of the underground streams. No 2 After the homes were built a couple of years later it needed a second drainage at a large cost because the houses were flooding.

The field for years was rented out for horses, even they wouldn't graze at the end of the space because of the boggy ground.

The streams underground have flooded the roads & land on Green Road where the Coop was situated many times

29  
over the last few years too.

A very serious problem also is traffic where on Church Lane as narrow as it is could an entrance & exit be?

This road has cars & buses:

with speed problems, by driving down the last 200 yards with Streets of 2 de sac's plus a tiny space leading to the parochial hall only allowing lean space one way minimum.

Please get real the Police have had problems with speed merchants exceeding the 20 MPH for years on Church Lane too.

Residents in Nearwood have had enough of building work interrupting our lives for a number of years, so we all say No to any sort of re development & more traffic in Green Road/Nearwood Road & Stonegate Road which is a hazard to all residents of Nearwood & danger to children etc etc.
