LDF Publication Draft Consultation
Forward Planning & Implementation

Dear Sir/Madam

Re: Planning Application to build new houses in Bramhope

We have been following with interest the debate over the planning application to build nearly 400 houses in the fields on the edge of our village. The relevant site reference numbers are we believe HG2 – 17 (1080 & 3367A)

Please be aware that we totally and utterly object to such building taking place and base our objections on the following:

Bramhope Health centre is not equipped to cope with the potential large increase in population. We understand that a new school might possibly be part of any development but have heard no mention of a new health centre.

The traffic on the Leeds road is already very heavy, especially at peak times and the thought of an estimated 800+ additional vehicles adding to the congestion is not a pleasant one. The commute into Leeds will become even longer and more frustrating and furthermore we believe that there will be a significantly increased risk to cyclists and pedestrians.

It is our belief that Leeds City Council have over-estimated the projected increase in the population of the city and that there is sufficient land available in brown field sites to meet the demand for new housing without building on green fields.

We sincerely hope that you will take our views and comments into consideration.

Yours faithfully

Lisa & Mark Youngman
