Dear Sir/Madam,

I am writing to strongly object to the proposed building on the following sites,

- HG2-41
- HG2-42
- HG2-43
- HG2-12
- HG3-2

Building on these sites would be in direct conflict with national policy on greenbelt and the loss of wildlife and bio-diversity could never be redeemed. Bats,Deer,various unusual bird life including Owls,Herons,Red Kite and toads,newts and many more species too numerous to mention.There would be no distinction between Horsforth and Rawdon with this urban sprawl and age old views across the valley would be lost. Horsforth and Rawdon are renowned for these greenbelt areas and the essence of these small historic towns would be obliterated by this over development. People need space to exercise and keep healthy in mind and body,as stated by the Government frequently and the loss of these areas would be detrimental to the local population,is that what Leeds City Council want and why have i not seen these proposed developments advertised anywhere?

Yours sincerely,

J.O'Malley-Gaunt
