THE PLANNING OFFICER.

We would like to strongly object to the proposed building of 155 Homes on site HG 2-10 (1221) at Gill Lane in Yeabold.

We have lived in Yeabold for over 40 yrs & have seen many new developments in the area. The site on Gill Lane is one of the few remaining Green belt areas left. It is adjacent to a Conservation area & should actually be a part of it.

This site has many mature & rare English trees on the land & is a home to various wildlife. It is a historic pasture land which is still used by a local farmer.

The A65 must already be one of the most congested roads in Leeds, not only during the week but also at the weekends.

The schools & DBS Surgeries are already full to capacity.

Another 155 houses in this area would bring at least 300 more cars onto the already very busy roads.

We would be most grateful if the plan to build on SITE HG-2-10 (122) at GILL LANE was not given permission to be built on.

Yours Sincerely

CHRISTINE WOODRUP
STEPHEN WOODRUP.
