LDF Publications Draft Consultation

Needs City Council.  
2 Rossinglin Street  
Needs HS 2 & HO.

Ref. Plans HS 2 & HS 2

Dear Sirs,

I wish to add my concern to the  
proposed building on the above sites

In the last eighteen years, Gorseley  
has done more than its fair share of  
providing new houses, thousands in fact  
with no regard to the improvement  
of the infrastructure.

At commuter times Park Road and  
A65 are gridlocked, moreover all the  
developments between Marsden and  
Horsforth have only added to the problems.

As this encroachment of the green belt  
only going to result in the Rural  
area becoming a vast conurbation of  
houses.

Further development using the above sites will only result in making access more difficult, as people who live on Silverdale Ave already have to park on the Pavement to allow free passage into the existing Estate

Perhaps you should also take into consideration the comments that "Historic England" have made to this proposal, making a more eloquent statement of fact than I.

I Remain Yours Faithfully
