40 Nook Road
Scholes
LEEDS LS15 4AU

12TH November 2015

Leeds City Council
SITE ALLOCATION PLAN
2 Rossington Street
LEEDS
LS2 8HD.

Dear Sirs.

Re: Leeds City Council Site Allocation Plan.

I am unable to complete the On Line Consultation form and wish to comment as follows:

MX2-33 Headley Hall Bramham.

This would be my preferred site. A new village and convenient for A1 and M1 motorway.

HG3-13 East of Scholes.

The site is too large and would double the size of Scholes and in so doing the environment would be lost. The Green Area would disappear. Scholes main street is very busy now most of the day and would not cope with extra usage, neither would the surrounding areas. I have previously made an objection to this plan and wish my views to remain the same.

HG3-12 Wood Lane

The access to this site would be very dangerous as it is in close proximity to the local school. I am unable to look on line at the plan but feel it would not be possible to bring another access point on to Main Street/Station Road Scholes.

HG2 Belle View Scholes

More 'Sheltered Housing' would be a good thing provided Scholes residents had the opportunity to live there.

EG2-4 Thorpe Arch

Building on a Brownfield site should go ahead first before any Green Land is taken.

In all areas of the City of Leeds BROWNFIELD SITES need to be used before GREEN LAND. The problem being that they are not attractive to the Development companies. Surely the Council should be able to use their authority in their plans for this City.

Yours faithfully

Mrs M P Ridsdale
