Scholes, 10/11/2015

Dear Sirs,

I have, up to now, always replied to any letters concerning plans of development around, or in Scholes, and given my reasons for objecting to them.

I was not able to attend the meeting in Scholes, which took place on the 24/10/2015. So, I don't know what was said, and what was proposed. I regret that.

I was present earlier this year, at a meeting in the ~~Town~~^{City} Hall when the development for 700 houses east of Scholes, was rejected quite rightly, and for reasons which are still existing (sewage, drainage, access, disruption, danger etc)

I will therefore say to you that: I am ~~opposed~~ ^{objecting} to anything (in terms of development) happening on site HG3,¹² and HG2.²⁸ In other words I am opposing anything ~~at~~ affecting the green belt and any building East of Scholes - where 700, now 850 houses are proposed to be built!

I understand that a very suitable

possibility for such a development, of such a size,
would be Headley Hall. I am in favour of that
possibility. MX 2 - 33

I regret not being able to take part
in your survey via Internet. I can't do
so, not being computer literate. So, I hope
my opinion, expressed in this letter, will
be taken into account.

I am sure a significant number of people
will be in my position. How can they
make their opinion felt, other than the
way I have used?

Yours sincerely,

Mrs. M. E. D. HAWKIN
