Re: Leeds Site Allocation Plans - Formal objection

Dear Sir / Madam,

As part of the Leeds Site Allocation Plan public consultation process, I would formally object to the proposed development of the following sites,

HG2-5

HG2-4.

It is my understanding that the proposed sites are not consistent with national policy.

The fields and open green spaces which are being proposed for development are important to me because I look ^{over} the field on Cozed Road.

These sites are greenfields and should not be developed on.

The city has no current plan to solve the traffic problems and Guiseley becomes a no go area.

Please keep me informed of the public examination plans and outcome.

Yours faithfully
