Why do you think this site is unsound/sound (delete as appropriate)

*If this land is built on, it will cause more flooding to Lidget Lane, the Lowthas and other low lying areas in Garforth. This is due to flooding from the Garforth dead-end canal, Garforth cliff, plus the hilly areas. The capacity for housing is already overloaded, because the drainage pipe is inadequate for all the housing as it is. What we could have is a flood plain, or a storage container for the excess water, which would solve the problem, instead of more housing, which would make things worse. We need to keep some green belt, even after development is finished.*

*When building, the essential thing would be to get the infrastructure right and test roads, water & power distribution.*

*There is a family in Lidget Lane, who have to clear out their own culvert, which has*

What is your alternative? *been done before.*  
*Build more housing on "Brown Field Sites."*
