Dear Sir/Madam,

We are writing to you to ask you not to build on fields in our area. This could cause serious problems.

Firstly, this will spoil the most amazing views in Rawdon, Horsforth and Aireborough. This would be a shame because we all like an incredible views don't we? People will miss those lovely views and this will stop things being inspired by the beauty of the countryside or art, memories and a lot more [HG1-96]

Secondly, wildlife will be effected by pollution from cars and houses as well as from the increased levels of noise. [HG3-4]

This could cause really bad traffic and make adults late for work. Children who will get late marks and attendance will suffer from increased congestion. This will make journeys a longer for you and me.

Parents could get sacked by their bosses. They won't like that won't we? A lot of accidents could happen during this. Please don't do this!

Most people will not want this to happen so we could do a big vote to see who wants it to happen to Leeds

Children would love to have an opportunity to see the amazing experiences. It is a dilemma. A big one.

If you do it we won't go on as many walks. We should be building on brownfield not in fields. It spoils our lovely green fields. We don't want a bigger population in our city.

If there are tons of people . We will find things harder to do and won't get anything done! Even in one whole day.

Yours sincerely
