KEEP RAWDON GREEN

Dear Leeds City Council,

I am writing to you because I want you to stop the housing development in Rawdon as it will spoil the great views (HG-12&HG2-41).

It will also really affect the wildlife with pollution and increased traffic. There will also be a huge loss of farmland (HG2-12&HG2-41).

Traffic will get even worse and there are lots more cars and vans and trucks. This will cause lots more pollution. Furthermore we will need to build more roads and this will be expensive.

Another important reason is that we will lose our beautiful scenery. We can't let this happen!

Rawdon has the most amazing views and everyone will be so disappointed to see it built on.

Animals will lose their habitats this will make bird watchers lose their hobbies. We're incredibly lucky to have the wildlife and scenery that others don't have.

This shows that Rawdon really cares about its wildlife and open fields.

I hope that this letter really makes you change your mind about building in Rawdon
