LDF Publication Draft

Consultation,

Forward planning and implementation,

Leonardo Building, Rossington St

Leeds, LS28AD

11<sup>th</sup> NOVEMBER 2015

TO LEEDS CITY COUNCIL,

SITE HG2-145 GILDERSOME

This site has no defendable boundary's, it is totally open green belt of good productive farm land. This site would drain down the into valley mills, which is an allocated flood risk area which has houses in this valley. Any sewerage would have to be pumped back up the valley.

All this valley has mine workings, with 3 large slag heaps.

The site allocation SLAAR 1332 Penfields Drighlington has no such problems with sewerage as this has been accepted by main drainage into the Gildersome Sewer, with no flood risk problems, and access to the development would be provided by a new roundabout on the A650 bypass.

YOURS SINCERELY
