

PDHO1522

LDF Publication Draft

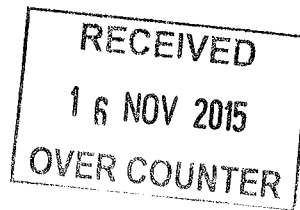

Consultation,

Forward planning and implementation,

Leonardo Building, Rossington St

Leeds, LS28AD

11th NOVEMBER 2015

TO LEEDS CITY COUNCIL,

THIS SITE PLAN REF; HG2-143.

With reference to the above SLARR.

I have objections to this site as it would involve increasing the traffic on King Street, which will have to take the traffic from the new ALDI supermarket. The Drighlington bypass was constructed to take traffic from the village street. I would think that the site to the south of Drighlington No 1332 would be more suited for development as the traffic could have direct access on to Drighlington Bypass. This site would also have defendable boundaries and would round off Drighlington.

Your Sincerely
