4.3. Please give details of why you consider the Plan is/ or is not legally compliant.

Please try to be as precise as possible, using headings to break up your comments and continue on a separate sheet if you need to.

I do not believe the Council is complying with N.P.P.F. There is no recent objective census done to justify the proposed building on this site. The council should be building on brown field sites, and those with planning permission that have not been built on. The council appears to target green belt land, without considering these. I do not believe the council can justify the use of this land, taking regard of the current legislation that protects green belt land. The council has not indicated how it will meet local needs. There is a vague inference that they will look at these, but no specifics.

Part 3 - Is the Plan sound?

At this stage, before the Plan is sent to the Secretary of State for Public Examination, we are asking for your views about the 'soundness' of the plan. An independent Inspector will examine the plan against the 'tests of soundness' (Please read the guidance notes on how to complete this section)

3.1. Do you consider the plan to be sound?

Yes (go to Q3.3)

No (go to Q3.2)

3.2. Which test of soundness are your comments about? (You must select at least one option)

Positively Prepared

Effective

Justified

Consistency with National Policy

3.3. Please set out why you think the Plan is sound / unsound? Your comments should briefly cover all the evidence and supporting information necessary to support or justify your view. It helps us if you can use subheadings to deal with specific issues. Please continue on a separate sheet if you need to. There may not be another opportunity to make further comments before the plan is sent to examination.

This area is greenbelt land. Exceptional circumstances do not exist to allow building here. There is no recent survey that highlights a need for more housing, no current study has been undertaken. Any development will create urban sprawl by merging settlements. The boundaries and historic characteristics of the Guiseley Conservation Area will be lost. The current infrastructure does not meet local needs, e.g. schools, roads, GP surgeries.

3.4. Please set out what change(s) you consider necessary to make the Plan sound.

You will need to say why this change will make the Plan. It helps us if you can be precise as possible and providing any suggested revised wording. Please continue on a separate sheet if you need to.

An Area Action Plan would have to be in place, before any change could occur. Current advice is needed with volume of traffic on both A65 and A660. Traffic is noise to tail frequently throughout the day now. Although local schools have been extended, they will not cope with current demand. The Council needs to take responsibility to ensure these are built - not just land set aside. Similarly current GP practices are inadequate. The Council should be accountable, if any sound housing proposed, is built, and not left for private companies to charge such developments.
