FAO LCC PROPOSED SITE ALLOCATIONS Comments

HG2-15(3400) Green Acres

Rather a dangerous site for accessing/departing from the steep hill on Moor Road.

The increased amount of traffic using this route through the Bramhope Village would be overloading the route to A660 junction to Cookridge and the airport. The village cross roads are difficult already.

Loss of Green belt again should not be used when other inner town areas are available for use for residents who want houses built closely together and don't want green outlooks, nor gardens.

In a conservation area 42 houses on 1.54 hectares sounds an excess.

Anna Taylor.
